Cocoa Price Differential announcement from Fairtrade International - April 2023

Dear Partners,

The Fairtrade Standard for Cocoa requires traders to pay a price differential for Fairtrade cocoa beans if the reference price in Ivory Coast or in Ghana falls below the Fairtrade Minimum Price (FMP) at FOB. The Fairtrade Premium of 240 USD/MT must be paid in addition to the FMP differential.

For deliveries between 01 April 2023 and 30 September 2023, the reference price for **Ivory Coast** ('valeur FOB garanti') is 1,415,216 XOF/MT, which is equal to 2,346.71 USD/MT (using the exchange rate valid on 1 April 2023, 1 XOF = 0.001658199 USD¹). Considering the FMP of 2,400 USD/MT a Fairtrade FMP differential of 53.29 USD/MT is payable.

The national regulation in Ivory Coast requires contracts with producers and buying centres to include details of the sustainability premium paid, such as the amount stated in local currency (XOF). For complete clarity, contract parties are instructed to use the same exchange rate as detailed above to calculate the FMP differential payment to producers in XOF, when a FMP differential is payable. It is also recommended to use the same exchange rate to calculate the Fairtrade Premium payment to producers in XOF.

No FOB reference value is published for **Ghana**. Whether or not a FMP differential needs to be paid thus needs to be defined individually, i.e. per contract.

For non-regulated markets (worldwide except Ivory Coast and Ghana), the FMP of 2,400 USD/MT at FOB and Fairtrade Premium of 240 USD/MT must be paid when sourcing under Fairtrade terms.

For organic cocoa, the Fairtrade Organic differential of 300 USD/MT is payable for all regions.

Please note that as of October 2021, to comply with Cocoa standard requirement 4.3.3, **organizations transfer any FMP differential payments to their members within 30 days of receipt by the organization**. Details can be found [here](#).
