

Approved fibres and schemes for use under the Fairtrade Textile Standard

The Fairtrade Textile Standard allows the use of “responsible fibres”¹ in textile product composition.

5.2.3 Products with responsible fibres (other than Fairtrade cotton)

Non-Fairtrade responsible fibre products may be sold under Fairtrade terms as long as the fibre and scheme behind it are included on the Fairtrade responsible fibre list and processed in a fully Fairtrade certified supply chain from ginning stage onward. The responsible fibre content rules from the approved responsible fibre scheme apply in this category.

Scheme/company	Scheme/company information ²	Fibres
Better Cotton Initiative	The Better Cotton Initiative (BCI) aims to make global cotton production better for the producers, the environment and the sector. BCI has developed a standard that defines how better cotton is grown.	Seed cotton
Cotton made in Africa (CmiA)	Cotton made in Africa is an initiative of the Aid by Trade Foundation (AbTF) that helps African smallholder cotton farmers in Africa to improve their living conditions.	Seed cotton
ENKA	ENKA is a leading European quality manufacturer of textile viscose filament yarns. ENKA® Viscose is a 100% wood based product and regenerated from pure cellulose.	ENKA® Viscose
European Union (EU) Organic Program	In the EU, the Council Directive on Organic Farming defines production and certification requirements of organic crops. It is designed to ensure close cooperation with the authorities responsible for the organic sector and guarantee uniform application of the relevant EU laws. (EC) Regulations 834/2007 , 889/2008 and 1235/2008 apply.	Seed cotton produced in accordance with the (EC) regulations
Lenzing Group	The Lenzing Group is committed to the fundamental principles of sustainable development. The renewable raw material wood is the basis for Lenzing fibres: LENZING™ Modal, LENZING™ Lyocell, LENZING™ Viscose and LENZING™ FR https://www.lenzing.com/en/sustainability/sustainability-management/sustainability-strategy/	Cellulose fibres: LENZING™ Modal LENZING™ Lyocell LENZING™ Viscose LENZING™ FR
Textile Exchange	Textile Exchange is a global non-profit that works closely with their members to drive industry transformation in preferred fibres, integrity and standards and responsible supply networks. They identify and share best practices regarding farming, materials, processing, traceability and product end-of-life in order to reduce the textile industry’s impact on the world’s water, soil and air, and the human population. Global Recycled Standard V4.0	GRS certified Recycled Polyester

¹ A fibre is a natural or man-made substance that can be spun into filament, thread or rope and in a next step be woven, knitted, matted or bound.
